QTY.	MATERIAL	PRICE	AMOUNT	DESCRIPTION OF WORK
>				Responded to call of So-Low -80°C reach-in which suffered a fault while at sea causing a short which tripped breaker. Crew on board isolated to door frame heater so it was disconnected. Ran through all components and their operation. Found compressors
→	drawing slightly higher than normal amperages. Start capacitors showed some corrosion on them. I would suggest replacing both High and Low stage start kits. Also, suggest replacing bad frame heater when unit is down so it can be properly installed.			OTHER CHARGES Truck Mileage: 48 miles Parking
